

Job Opportunity: Water Supply System Flusher

Are you a reliable individual with a knack for meticulous work and a valid driver's license? We're seeking a detail-oriented professional to join our team as a Water Supply System Flusher. This crucial role involves maintaining the integrity of our water supply systems by flushing out dead mains.

Requirements:

- Valid driver's license and access to a vehicle
- Ability to access various locations, including going through fields, dealing fencing
- Capability of lifting 20lbs and turning a plumber's key
- Strong attention to detail
- Availability to do work between the 15th and the end of each month
- Timely completion of tasks and reporting to the field manager by the last business day of the month

Responsibilities:

- Flushing dead mains in water supply system
- Conducting tests to ensure optimal functionality
- Making detailed notes of observations and actions taken
- Submitting comprehensive reports to the field manager by the end of each month
